Discussions

Editorial

You are given the firstname and lastname of a person on two different lines. Your task is to read them and print the following:

```
Hello firstname lastname! You just delved into python.
```

Input Format

The first line contains the first name, and the second line contains the last name.

Constraints

The length of the first and last name ≤ 10 .

Output Format

Print the output as mentioned above.

Sample Input

```
Guido  
Rossum
```

Sample Output

```
Hello Guido Rossum! You just delved into python.
```

Explanation

The input read by the program is stored as a string data type. A string is a collection of characters.
